5th December 2006

Dear Bianca,

## Re: Future Cooperation through an International Network.

I write on my behalf and that of Sierra Leone Truth and Reconciliation Working Group, to express our sincere thanks and appreciation for the initiative to organize the congress “Justice heals – The international fight against impunity” in Bochum.

It is our desire to have cooperation with organizations like yours and to work in close collaboration. However, such cooperation and coordination will only be possible through an International network as we suggested during the Congress.

As per our previous discussion during the last meeting, we at Truth and Reconciliation Working group have always been in support and stressing on the need for a strong and effective international cooperation and network amongst organizations in the fight against impunity noting with concern the background of our Civil Conflict and the need to share experience and support for each other.

Once again, always count on our support and cooperation towards the establishment of such a network.

Thanks,

John Caulker
